

NICHAPHA (MIN) RUNGSINAPORN

New York, NY

nr3080@barnard.edu | (+1) 224 463 7340 | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

EDUCATION

Barnard College of Columbia University

Bachelor of Arts in Computer Science and Economics

New York, NY

Expected May 2029

GPA: 3.62

Data Structures & Algorithms in Java, Intro to Java, Intermediate Microeconomics, Calculus III, Calculus-Based Statistics & Probability

PROFESSIONAL EXPERIENCE

Accenture

Technology Analyst Intern

Bangkok, Thailand

June 2026 - Present

- Building data governance framework for AIS (Thailand's largest telecom) within Accenture's Technology practice
- Developing data models across the payment domain including ER diagrams, critical data element definitions, and reference data structures to operationalize governance principles and ensure cross-system integrity

Second Door @ Columbia University

Founding Team Member

New York, NY

January 2026 - Present

- Built backend architecture and integrated RentCast API to surface live NYC rental listings for a nonprofit housing platform targeting renters overlooked by traditional screening systems
- Collaborated with co-founders on MVP scope, technical roadmap, and feature prioritization

IBM

Student Intern

Bangkok, Thailand

June 2024 - July 2024

- Developed front-end functionality for an AI-driven educational platform using React and JavaScript
- Supported Firebase Firestore (NoSQL) integration and Flask backend development within a 6-member team

PROJECTS

Mosaic - Document Privacy Auditing Pipeline

June 2026 - Present

- Built agentic Python pipeline using Claude API and FastAPI to detect sensitive information leakage across document sets, including cross-document inference risks no single document reveals alone
- Implemented semantic chunking, per-chunk PII detection with confidence scores and reasoning traces, and a mosaic inference step that aggregates entity signals across sources to surface compounded disclosure risks

WORN - Digital Closet Platform (In Development)

March 2026 - Present

- Building native iOS app (Swift, SwiftUI, SwiftData) leveraging Claude vision API to auto-tag clothing across 6 dimensions (category, color, formality, occasion, aesthetic)
- Implemented natural-language search interpreting contextual queries (e.g., "warm-night dinner date") to surface underworn items, addressing wardrobe over-consumption
- Designing core user flows and UI; planning Kotlin port for Android post-MVP

LEADERSHIP EXPERIENCE

WICS (Women in Computer Science) @ Columbia University

Corporate Chair; Former Event Coordinator, Media & Production

New York, NY

October 2025 - Present

- Manage sponsor outreach and event coordination for Columbia/Barnard's largest women-in-CS org; partnering with Datadog on a Fall 2026 event
- WICS sponsor network includes Jane Street, Bloomberg, HRT, and BlackRock, with cross-team support on event programming

Application Development Initiative (ADI)

Logistics Committee, DevFest

New York, NY

January 2026 - Present

- Coordinated scheduling and event operations for student-run hackathon (500+ participants, \$5K+ in prizes)

Technology Council

Co-President, Web Development Lead

Bangkok, Thailand

July 2022 - June 2025

- Led 24 students in web development and digital literacy initiatives; organized computer donations expanding tech access for 100+ students

VEX Robotics

Alliance Coordinator

Bangkok, Thailand

July 2022 - June 2025

- 2x Thai National Champion and 2x VEX Robotics World Championship competitor (Thailand representative); led alliance strategy and scouting across 10+ teams

SKILLS

Languages: Java, Python, JavaScript, TypeScript, Swift (Learning)

Frameworks/Tools: React, SwiftUI, SwiftData, Flask, Firebase, Git, REST APIs, Figma, FastAPI

AI/ML: Claude API, LLM integration, prompt engineering, IBM WatsonX
